

HAIR TESTING AS A CONDITION OF ENTRY

Will Rogers Downs and the OQHRA share the same goal of conducting a race meeting of the highest quality free of any horse racing practices that are corrupt, incompetent, dishonest or unprincipled. The hair testing requirements below were implemented to provide assurance to every owner and all bettors that the track is making a significant effort to ensure that horses are not competing with an unfair advantage and to protect the integrity of our sport and livelihood.

No horse will be allowed to enter into any race at Will Rogers Downs unless results of a negative hair test through the process outlined below have been provided to Will Rogers Downs*.

**All testing will be facilitated by OQHRA and scheduled by calling the Hair Testing Scheduling Line at:
(405) 881-5120**

1. Hair samples must be collected for testing within **90 days** of the first race in which a horse will compete at this meet. Results must be on file with WRD before a horse can be entered.
2. As a service to horsemen, OQHRA will facilitate the collection and submission of samples from horses that are scheduled for testing in order to race at Will Rogers Downs.
 - a. A fee of \$240 per horse must be paid at the time of collection of samples.
 - b. The Trainer or Owner must contact the OQHRA to schedule hair collection.
 - c. **Appointments are required and must be booked by 12:00 noon the day prior. Call (405) 881-5120, email oqhrahairtest@oqhra.com or visit OQHRA.com for scheduling information.**
3. In no case will a horse be eligible to enter into any race unless the hair testing described herein has been completed and a negative result has been provided to Will Rogers Downs in accordance with these conditions. Therefore, **allow 10 business days prior to entry day for test results to be returned to the racing office.**
4. All qualifiers for Trials, Derbies and Futurities will require additional testing in order to participate in respective finals. We strongly suggest scheduling additional testing **at the earliest available opportunity** in order for those results to come back as described above.

*** Hair tests and the results of any such testing as required by this condition are not considered official tests or results by the OHRC.**

*** Hair tests and results will be reciprocal with Lone Star Park for the 2022 Season. If you test at WRD, results will be shared with Lone Star Park. If you test at Lone Star Park, notify the WRD racing office at time of entry.**

*** The Trainer or Owner who initiated the hair test will be contacted at once, within 24 hours whenever possible, upon notification of any positive result.**

*** Racing office personnel cannot and will not provide any hair testing results for any reason.**
